PROFESSIONAL EXPERIENCE

 VikramBansalConsulting

                                                                          Duration:June-August,2016
                                                                          [work form home]
* During my internship I worked on various domains of android like I have worked on a Machine Learning app in which I have developed the UI of the app and also made a UI for quiz app which displayed questions in Pager View.
* I used Android Studio for developing apps and some external api.

KEY PROJECTS

BestWalls   **[June-September, 2016]**
(https://play.google.com/store/apps/details?id=com.beswall.android.bestwalls)
* It is basically a wallpaper app from which user can select wallpaper of their choice and download it.
* There are different categories of wallpapers available like actors, food,Cars,Animation.
* It was develop Android Studio,Volley Library,Picasa web albums api.
   (https://github.com/bvnbbn/BestWalls)

Sunshine   **[Feb,2016]**
* It is Sunshine app which shows week temperature as soon as it is launched in a list view according to your location.
* In This weather map api is used which gives Json response.

Court Counter(https://github.com/bvnbbn/CourtCounter1)   **[Jan,2016]**
* It is basically an android app which counts score of basket ball match.
* When the game ends it tells the total score made by both the teams.
